To streamline the discovery process and avoid email size issues, Delmarva Power is using a web based document management service that allows for access to discovery responses submitted by the Company for Docket No. 17-0977. This is the same system that was used in Docket No. 16-0649. The system is called E-Bridge and is a secured service and will require a user name and password to access the system. You will receive a username and temporary password from a Company employee by the name of Jean Perez. Jean will be your contact for access and questions on operation of E-Bridge.

Please look for the email from Jean, and let me know if you have any questions.

Thank you.

Heather
